

# ECT Subject Specific Enhancement Secondary Programme

We are keen to ensure that all Early Career teachers have the opportunity to develop networks of subject specific enhancement to supplement their work on the Early Career Framework. This training is open to all ECTs regardless of their ECF provider; we aim to be able to provide strong subject specific networks across our region.

**Our courses are delivered at a central location within our region and will be a combination of face-to-face and virtual with at least one virtual session included.**

**Cost:** £99 for three sessions per ECT

**Computing:** Fully funded by the Computing Hub

**Maths:** Fully funded by Maths Matrix

**Science:** £250 per school (for all ECTs)
