

Swallow Dell Outreach Team presents:

A day in the life of an IAP. High quality SEND provision in mainstream.

Tuesday 13th October
9.30 am

"Excellent training – straight to the point, clear and gave a good overview of the settings"

The session will provide valuable insight to support schools as they develop alternative provisions for children with the highest needs, which cannot be met beyond reasonable adaptations in the classroom.

- Sensory Needs Provision
- What an internal provision is and looks like – see them in action!
- Develop internal provision **needs analysis, curriculum, and assessment systems**
- Context to support the reintegration conversation
- Outreach support available to you from Swallow Dell

"We really enjoyed today's visit. Lots to take away and we were so impressed with how the spaces around the school were utilised, how proudly and knowledgeable all staff spoke about the school and the provisions, and with the consistency that has been achieved across the school – the whole school felt calm and full of purpose."

There are 20 places available for the 1.5hr session @ £50 each. If you want to bring multiple members of staff, there is a school place offer of £100 per school.
